## PROJECTS

**Portfolio Website** | Tech Stack : React JS, API, Tailwind CSS, Bootstrap

- Built a responsive personal portfolio website using React (Vite), Tailwind CSS, and Bootstrap.
- Integrated a contact form with API support to send and manage messages securely.
- Showcased skills, projects, and contact information in a clean, user-friendly interface with optimized UI/UX.

**TODO LIST** | Tech Stack : JavaScript, HTML, CSS

- Developed a task management web app using HTML, CSS, and JavaScript.
- Implemented CRUD functionality (add, edit, delete, mark complete) for efficient task organization.
- Integrated LocalStorage to persist tasks across sessions.
- Added a motivational quote feature in the navigation bar to enhance user engagement.
